

URIDIUM WHITEPAPER

The Future of Web3 Commerce & Community

Introduction

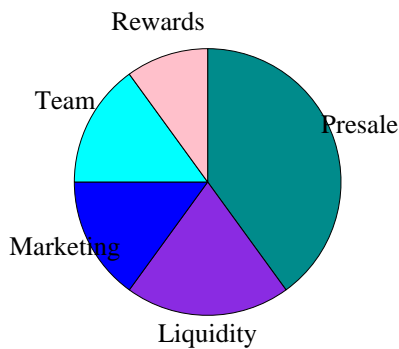

Uridium is a next-generation blockchain token built on the Binance Smart Chain (BSC), designed to empower decentralized commerce, community engagement, and digital ownership.

Tokenomics

Total Supply: 1,000,000,000,000 URUM

Presale Price: \$0.000001

Network: BSC (BEP20)

Roadmap

Phase 1 - March 5, 2026: Token creation, website launch, whitepaper.

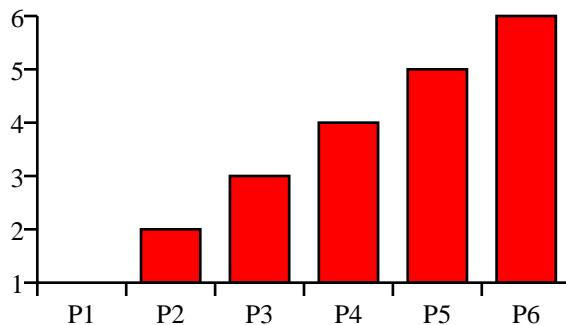

Phase 2 - March 22, 2026: Community building, airdrop campaign, marketing.

Phase 3 - March 22, 2026: Public presale launch, analytics, liquidity lock.

Phase 4 - August 30, 2026: DEX listings, tracking tools, influencer expansion.

Phase 5 - November 30, 2026: Contests, merchandise preview, community challenges.

Phase 6 - January 7, 2027: NFT collection, staking, limited airdrops.

Utility & Ecosystem

Uridium integrates token payments, NFT ecosystems, staking, and future e-commerce infrastructure.

Security

Smart contract audits, liquidity lock, and transparency mechanisms ensure long-term trust.

Conclusion

Uridium is not just a token, but a growing ecosystem driven by community and innovation.
